DENNY PALMER

Are you still trying to figure out what this Berkley Gulp! and Berkley Gulp! Alive stuff is all about? Berkley Ambassador, Denny Palmer, will be here to help us all learn why it is so good and explain how to use it to put more fish in the boat this season. Denny's seminar will also focus on his favorite tactics for landing those fat Lake Oahe walleyes.

Denny Palmer and his wife, Glenda, have owned and operated the MoRest Motel and MoPro Guide Service in Mobridge, SD for over 20 years. Denny spends some 160 days on the water guiding clients and doing on the water promotional

activities for his sponsors. Denny does numerous seminars, writes articles for outdoor publications and is a frequent radio and TV guest with his good friend, Tony Dean.

President's Comments...

Dear Club Members,

I am very appreciative of the attendance we had at our Angler's Night featuring Ted Takasaki. Ted put on a good program and answered many questions from the floor.

Let's hope that when you receive this month's newsletter our weather has finally made the turn into "real" spring. I for one am anxious to get the boat out of storage and ready to go for our first club outing at Waubay.

My boat always has space for a fellow club member this fishing season who may not have a boat, just give me a call.

As always, many thanks for those who have volunteered their time and efforts for FM Walleye's Unlimited Inc.

Have a Great Month!

Steve Garten, President

Welcome to our newest Advertiser – "Hoot's Sports" in Perham, MN.

Hoot's Sports was started in November 2004 when the former dealership ceased operations. Mike Parta and his family saw an opportunity in this business and made the "plunge". They re-hired most of the former staff. Mike brought his experience in managing a large Newspaper business in to the boat and ATV business. Using his philosophy of hiring the best people and training them to hone their skills has paid great dividends in the Sports business too.

Hoot's has the area's only Master Certified mechanic in its service department. They are also a Certified Marine Dealer and will soon they will become the only Brunswick certified facility in the area.

Hoot's Sports is the dealership for Lund, NauticStar, Misty Harbor and Ercoa pontoons, Yamaha ATV's and snowmobiles as well as Yamaha, Mercury, Suzuki and Evenrude outboard motors. They also carry a large inventory of sporting accessories.

Mike's advise for the first time boat buyer is to determine your main boating activity; fishing, pleasure or a combination. You also need to know the "size of the body of water" you will be fishing. Hoot's will then help to size your boat package to meet your specifications.

Hoot's Sports philosophy of they speak "Walleye Best" promotes weekly fishing seminars on Saturdays this time of the year. Local pros will give you the latest tips. The current "Hot Tip" is the use of plastics, especially the new Gulp products.

So what does a retired newspaper man turned sport's dealership owner do for relaxation? Naturally he would cruise on his pontoon, read the paper and drink a good wine. Is a winery in the cards next, Mike?

Congratulations Scott, Tami and Grady Stillwell

They were chosen as the 2007 Distinguished Member Award Recipients. This award is a lifetime achievement award that goes to club members. The Stillwells have over 59 years of combined service to F-M Walleyes Unlimited, Inc. It would take a book to write list all of their accomplishments.

We are proud to have them in our club!!!

TED TAKASAKI'S ANGLE ON EARLY JIGS

Last month, Ted Takasaki spoke before a full house at the Double Wood. Sitting outside was another show as Ted brought his new Lund Pro-V Glass for show and tell and so that members could see this new fishing machine.

Ted talked much about where and how to catch spring walleyes on jigs. During this time Ted typically works 7ft or less on the warm windblown shorelines. 1/16-1/4oz jigs are normally used. The size is dependent on depth and wind. On deeper or windier water you should upsize the jig. Sometimes a bigger jig is necessary to give the bait a bigger profile. Ted likes to use bright fluorescent colors in dirty water. The jigs are usually tipped with a fathead or what the available bait is. He likes plastics, but that is more to add some action and scent to the bait or change the profile.

There are a few places to key in on river and reservoir systems. One place to try is areas where river channels near shorelines. Ted likes to go up creek arms and work points, where the water is a little warmer or some weeds can be found. Also look for subtle changes, like areas where there might be a few more rocks, a hole, or open pockets of weeds.

Ted also shared many tips and answered numerous questions. When it gets windy boat control can become an issue. When this happens throw a drift sock off the transom. This will slow the boat down and also help the boat run parallel to the shoreline. Another tip to try is to use mono filament if you are missing hooksets on superlines. Opening the gap of a jig or using Max-Gap jigs can also increase the amount of hooksets. After the seminar, Ted went back to his boat to answer more questions and to allow people to look over the impressive rig.

FM Walleye Club Outings UPDATE

As I sit down to put this article together I am looking at three feet of snow and ice. But, it won't be long now – that's what the mouse said when he got his tail in the trap!

Our first out is at Waubay Lake in Webster, SD. We are running out of the Breske Bay landing. The landing is a few miles north of Webster. We are planning a fish fry on Saturday after the weigh-in. Bean, chips, something to pass if you would like, we plan to keep it simple. Just have fun.

We are staying at the Holiday Motel in Webster, SD, 1-800-667-3323 for reservations. The tournament will run Saturday and Sunday, 7:30 a.m. to 3 p.m. each day. The lake limit is two fish per day. This is a good lake to start the year out. In the past we have had good lake weather and fishing has been very good. Hope to see you there.

Mark your calendars for May 17th and 18th, Lake Minnewaska at Starbuck MN. This lake is new to me as I have never fished this lake. I have been told the lake is a good fish producing lake with walleyes biting on just about anything this time of year. Hope to see you there.

Contact Steve Hall or Scott Stillwell with any questions.
